

This is Aiden and Cora.

Aiden is going to visit the dentist.

Aiden and his mom go up
to the building.

Aiden opens the front door.

Aiden follows the footprints on the floor and opens the door to the office.

Aiden plays with toys while he waits.

His mom talks to Miss Sue.

When it's Aiden's turn, he lays down on a special chair and keeps his hands on his stomach. He can watch a movie and listen with headphones.

This is what he is sees when he lays down.

Aiden is curious about how the instruments will work and why Miss Robyn is using them. He asks Miss Robyn and she answers all his questions. Aiden is excited to see them all.

Everyone wears a mask and special gloves. Aiden opens wide when Miss Robyn counts his teeth with a small mirror and tooth counter. There is a flashlight to help Miss Robyn see in Aiden's mouth.

Miss Robyn cleans Aiden's teeth with a special rotating toothbrush. It vibrates and tickles his teeth.

Then Miss Robyn uses a water squirter to rinse toothpaste off of Aiden's teeth. Aiden spits the water into the straw. It makes a slurping sound.

Then Dr K paints tooth vitamins on Aiden's teeth to make them strong. They are sticky and sweet.

Aiden has pictures taken of his teeth to make sure they are healthy.

A small piece of paper goes next to the teeth.

Aiden opens wide so Miss Robyn can put the paper in the right place.

He is a little nervous about the machine, he hopes he can sit still long enough.

Aiden did a great job staying still and the picture of his teeth show up on the computer.

Aiden gets to pick a new toothbrush and stickers for being such a great helper.

While his Mom talks to Miss Debbie,
Aiden picks out his balloon.

Good job Aiden and Cora!
