

This is Aiden and Cora.

Cora is going to visit the dentist.

Cora and her mom go up to the building.

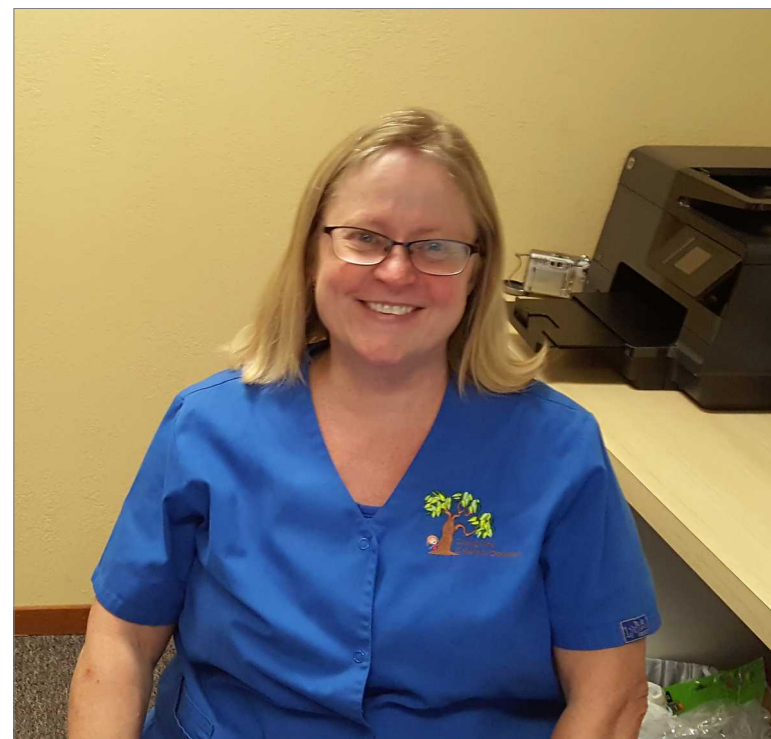

Cora opens the front door

Cora follows the footprints on the floor and opens the door to the office.

Cora plays with toys while she waits.

Her mom talks to Miss Sue.

When it's Cora's turn, she sits in a special chair that lays down. She has her hands in her lap.

Cora opens wide when Dr K comes to check her teeth. Dr K uses a flashlight to see inside her mouth while Miss Irene types notes in the computer. Cora wears sunglasses.

Miss Irene cleans Cora's teeth with a special rotating toothbrush. It vibrates and tickles her teeth. Cora gets to hold a straw that sucks out the extra toothpaste. It makes a slurping sound.

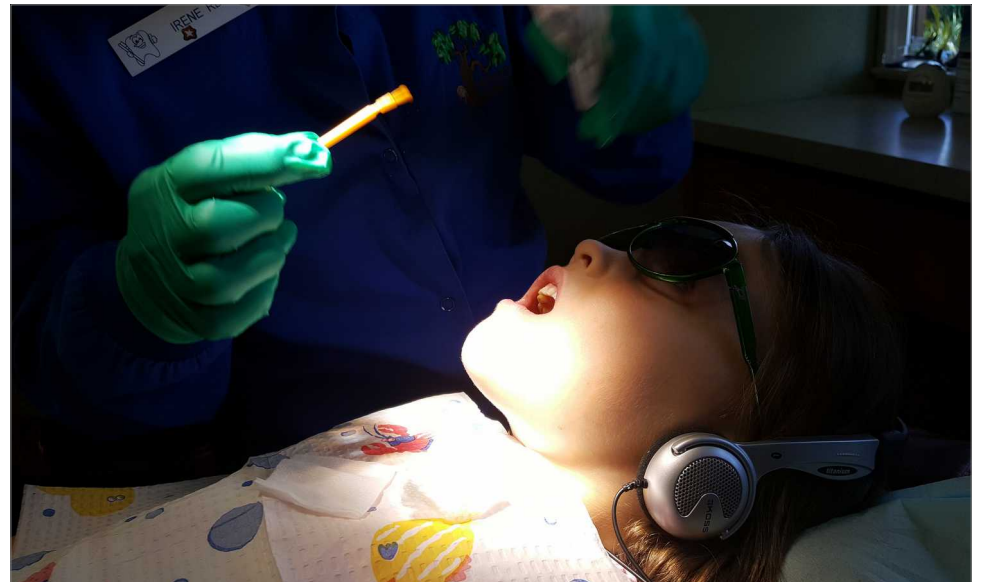

Cora is feeling a little overwhelmed with all of the tools and raises her hand for a break. She closes her eyes and takes a few deep breathes. Then she's ready to finish.

Miss Irene uses a water squirter to rinse toothpaste off of Cora's teeth. Cora spits the water in the straw.

Then Miss Irene paints tooth vitamins on Cora's teeth to make them strong. They are sticky and sweet.

Cora gets to pick a new toothbrush and stickers for being such a great helper.

While her Mom talks to Miss Debbie, Cora picks out her balloon.

Good job Aiden and Cora!
